CALABRIA

PRO-V II

Calabria introduced the Pro-V II, a wakeboarding machine that screams for attention. Not only is it one of the most spacious 20-footers around — something any rider and posse can appreciate — it also has the stylish attitude to match. The stainless-steel tower, carbon-fiber like upholstery, and new dash design catches your eye right away, and the wakeboarding-oriented performance will definitely keep your attention.

The Pro-V-II's wake performance mirrors that of its older brother, the Pro-V, offering rampy wakes with excellent shape. Beginners through intermediates will certainly get their fix by using the patented integrated ballast system to boost wake size, and advanced riders can go for optimal wake size just by adding more ballast.

Innovative ideas like the forward placement of the gas tank help the Pro-V II knife through the water with an efficient running attitude. With the MerCruiser Black Scorpion 330-horsepower engine, you will be impressed by the hole shot, and this boat will hold its own through aggressive turns!

It will be easy for you to stretch your legs on this exceptionally spacious 20-footer, and the overall fit and finish of the Pro-V II makes for a comfortable, stylish, and exciting ride.

Specifications

-Length w/ Platform: 21'6"
-Length of Platform: 30"
-Beam: 98"
-Length with Trailer: 24'3"
-Width with Trailer: 102"
-Weight: 3300 lbs.
-Fuel Capacity: 55 GAL
-Draft: 23"
-Seating: 11
-Bow Style: Open
-Standard Engine: MercCruiser Black Scorpion-330 hp

CALABRIA

PRO-V

Huge, professionally chiseled wakes that don't disintegrate when you charge at them, a V-Drive wakeboard boat that "...turns on a dime" with plenty of space for the whole crew and their gear; not in any boat you've ever heard of, right? Wrong!

The **Cal-Air Pro-V™** represents the epitome of engineering excellence, forethought and design. This is the world's most technologically advanced wakeboarding machine. The standard **CAL-AIR™ Wake System** fills in 45 seconds and empties in 15 seconds adding 700 lbs. of water weight, **NO PUMPS!** The standard **CAL-AIR™** tower collapses for simple, easy storage and due to the unique transom area Delta Pad, there is absolutely no bow-rise resulting in effortless planing, no high-chairs needed! To top it all off the optional, highly-custom **Swoosh and Checkers or the Ellipse** graphic designs are all sprayed in mold by Calabria artisans to a minimum tolerance of 25 mils; simple gelcoat work covered by undemanding stickers is clearly unacceptable.

Pro-V

TEAM-V

One of the best just got better. This year, Calabria Boats has added a Team Edition Pro-V to their line-up. Still boasting oversized playpen seating, storage, and the fastest filling and emptying ballast system available, the Team-V is a well trimmed version of its predecessors.

First, Calabria has taken the best functioning ballast system in the Towboat market the **CAL-AIR™ Wake System,** and upsized the ballast to over 1000 lbs. Filling in just over one minute, your ballast will be full by the time you figure out who is riding next. Calabria features an oversized, wrap around seat configuration, which seats an NMMA approved 15-person capacity. Accented with custom interior accents and graphics, the Team-V is sure to wrap you and several of your friends and family in style and comfort. With over 55 cubic feet of storage, having the ability to store all of your gear away, make the Team-V easy to load riders and passengers with ease.

Topping off the Team-V is a 2 ¼" polished stainless steel wakeboard tower. This unique tower performs better than an aluminum, which bends, and puts stress on the fiberglass where the tower is mounted. Boston Acoustics has teamed up with Calabria to feature a mind numbing, 11 speaker audio system. The system is accented with (6) 6x9 cockpit speakers, (4) polished 6 ½" tower speaker, a massive 5 channel amplifier, and a heart pounding 10" subwoofer.

Calabria doesn't stop there. With features like Perfect Pass Digital Wakeboard Pro, an automated dual ram wake shaping system, dual port heater, and a flip up bolster driver seat, the Team-V leaves nothing to be desired by riders and passengers alike.

CALABRIA

CAL-AIR

The Cal-Air is a high-end multi-purpose boat with a split personality. It produces both a great slalom wake and awesome pro-level wakes for the family also looking to wakeboarding. This boat is plush, luxurious and loaded with features, the best of which is built into the floor. The Cal-Air uses Calabria's patented integrated ballast system. With a push of a switch the release valves open and the ballast tanks immediately flood with 700 pounds of water—in about 45 seconds. It empties in a third of that time just by driving with the valves open. This means the boat goes from slalom to wakeboarding and back much quicker than any other boat on the market. Another invisible feature is that the gas tank is located forward, where other manufacturers put unusable floor storage lockers guaranteed to soak anything put in them. This assists in giving the Cal-Air incredible storage room in the rear trunk.

More visible comfort features include standard removable jump seats, a recessed driver's foot well, ergonomically designed drivers helm with fully appointed dash and a polished stainless steel tower. It's as comfortable to lounge in as is to ride behind.

MERCURY MerCruiser

The Scorpion Stings. Everything Else Bites.

The Black Scorpion engines are here with a vengeance. Designed and built with one purpose: to deliver the most effective pulling power with the right amount of torque right when you need it. With the Tunnel Ram intake manifold, a 90-mm throttle body and billet steel high-lift camshaft, no other tow sports engine can deliver the sting of a Scorpion.

Scorpions are not all brawn. Black Scorpion is also wicked smart. Fully dialed in with SmartCraft® technology to give you total control at the helm and over the water. The ECM 555 Controlled Area Network makes the entire vessel an intelligent system. The SmartCraft® system serves as an I/O hub for digital engine and environmental information and enables features like Engine Guardian to monitoring and protect your valuable investment.

Our Calabria factory technicians have been rigorously trained and certified by Mercury's Marine 29 point Propulsion-Installation Certification Program. As a result, your engine is installed at the highest quality. More so, Calabria's Certification gives you a standard 2-year limited engine warranty on every boat. Now all you have to do is pick your poison.

330 hp

MX 6.2 Black Scorpion 340 hp

FEATURES

RELIABILITY

- ECM 555 fuel and ignition system, along with platinum-tipped spark plugs, ensures reliable starts and outstanding performance, year after year
- Dry-joint exhaust eliminates the chance for water to enter engine through leaky gaskets
- Water-separating fuel filter helps protect fuel system and engine against damage
- Extra high alternator output at idle to keep batteries going with large amps and water pumps
- Proven General Motors® cast-iron block V-8 power for years of reliable operation
- Ceramic-coated exhaust elbows better resist high temperature and corrosion
- Brass seawater pump housing improves life and better resists damage from running dry
- No fuel return lines for added safety
- An all-iron exhaust system will not corrode, leak or melt like aluminum exhaust can

PERFORMANCE

- Nothing beats the power delivery of a Tunnel Ram
- 90-mm throttle body for instant throttle response
- HVS ignition with knock control maximizes power and protects against low-quality fuels
- Low-restriction anodized flame arrestor for added horsepower and torque
- A variety of available high-quality hydraulic transmissions allow boat manufactures to precisely match hull characteristics and boat weight to optimize performance
- Custom hot spark calibration for maximum pulling torque

EASY OWNERSHIP

- Three-year/300-hour maintenance interval on many periodic service items save time and money
- Color-coded service points make checking fluid levels simple and straightforward
- Operates on easy-to-find, less-expensive 87-octane fuel
- No tools required to drain water from engine with blue drain plugs
- Special ball joint throttle and shift linkage for easy maintenance and custom adjustments made simple
- Optional remote oil filter and oil drain hose, makes V-drive oil changes easier than a car
- Optional air-actuated water drain, drains lake water from the block in seconds

TECHNOLOGY

- Multi-port fuel injection provides easy starts, cold or hot, and automatically adjusts for changes in temperature, weather or altitude for terrific performance in any environment
- Helm-mounted Audio Warning System works with Engine Guardian to monitor and protect against engine or transmission damage if monitored temperatures or pressures vary from normal range
- Large 65-amp alternator provides plenty of power for popular onboard electronics, even at low rpm
- MPI engines are designed to display engine information on your choice of analog or SmartCraft® digitally driven gauges and displays

Battery Isolator Switch

Automatic / Manual Bilge Pump

Bilge Blower System

Closed-Cell Flotation

Engine Warning Alarms

Stainless-Steal 105 db Horn

Inland Illumination

V-Drive Transmission Warning Light

Optional Heads-Up Speed and Tachometer

All Boats are NMMA Certified using ABYC Standards

PARTNERS

Calabria works with many marine industry organizations and experts to offer you the safest and highest quality boats available.

The Official Calabria Dealer - Few are Chosen

Calabria Boats has set the standard for performance, quality, and durability. Your official Calabria dealer reflects this incomparable Calabria reputation for professionalism and integrity, providing you with unrivaled attention. For this reason, you can purchase your Calabria only at an official Calabria dealer.

Selecting the Right Model

Your official Calabria dealer's staff is specially trained to help you choose the appropriate boat from our array of models. Whatever your particular boating needs, there is a Calabria model right for you.

Calabria Authorized Apparel and Accessories

Your official Calabria dealer is authorized to offer genuine Calabria apparel and accessories for you and your boat. Your dealer will provide expert guidance in choosing all of your Calabria accessories. You may also purchase official Calabria apparel and accessories via our website at http://www.calabriaboats.com

A Valid Calabria Warranty

Your official Calabria dealer is authorized to provide you with a transferable, lifetime warranty. This uncompromising warranty is backed by the renowned Calabria service network. So when you're ready to purchase your Calabria, remember that an official Calabria dealer is your best source. It is where you can be assured that your lifelong investment in a Calabria will be protected.
